

SERVICE STATION INSURANCE PROGRAM

A Leading Expert in Fuel-Related Insurance Risks

AMC Fairmont is known for our expertise, integrity and knowledge throughout the fuel industry, and for our continued development of innovative and unique insurance products, as well as the ease of doing business with us.

Coverage from Gas to Garage

AMC Fairmont's Retail Service Station Program has been providing insurance in the niche market of Retail Gasoline and Automotive Repair Business for over 20 years. Our program is designed to encompass all aspects of the auto service related business.

We are one of the country's largest writers of service station business, and we market our insurance program through local, independent agents with service station expertise.

The AMC Fairmont Advantage

Risk Engineering - Our Health, Safety and Environmental professionals find the right combination of resources, content and delivery methods to make a positive impact for our clients by helping them reduce injuries, property losses, business failures and environmental disasters. The programs and services we provide are industry-specific and delivered by specialists in the niches in which AMC underwrites business.

Claims - Provide a complete array of claim services, including the handling of serious trucking accidents, propane, petroleum, pollution and bodily injury claims. AMCA provides expertise in subrogation and litigation claims management.

Certificate Monitoring - Provide risk management services by monitoring certificates of insurance.
